

BASEWORLD Sketchovers

1. 5 different foundational structures that all provide a unique function. Maybe resources can be used for each
2. Caves can spawn underground? Maybe the players can install some sort of elevator in their base.

1. The background is made of multiple layers. 1. Particle Foreground Layer, 2. Foreground layer. 3. Particle Background Layer (For Cloud and Creatures)
4. Background Layer 5. Sky Particle Layer (for shooting stars) 6. Sky Layer (Stars and stuff?)
2. This concept wants a Particle Effects system, and like depth ordering stuff.

1. Does the game have Darkness? Do players have to place torches?
2. What kind of enemies inhabit the underground?
3. What kind of resources can the player find?
4. How do underground tools work? If the players place torches, does that take up a hotslot?
5. Do players need keys for chests?
